## Leonard Street & Leonard Circle Road Improvements

The DPW-Highway Division has scheduled Leonard Street and Leonard Circle for road improvements this construction season.

The plans are to remove and replace a deteriorated sewer manhole, remove the existing curb and replace with new curbing, repair sidewalks as needed and overlay, full depth repairs where needed and then rubber chip seal followed by a 1-1/2 inch overlay.

- Starting on or about May 29, 2019 the Highway Division will start removing all of the existing curb and part of the grass strip.
- This is will be followed by the installation of granite curbing on corners and the cul-de-sac to minimize future plow damage. All other areas will have new monolithic Cape Cod berm installed with the paving in July.
- Additional updates will be provided once we have tentative dates for the chip sealing and final paving.
- If anyone has irrigation in the grass strip, please mark and/or remove so it does not get damaged.

**Please be aware that upon final paving, the road will have a five (5) year “no dig” moratorium.**

**If anyone is considering adding or upgrading water, sewer or gas services, please schedule it with the appropriate utility and also notify the DPW. If you have any questions, please contact the DPW Office at 508-261-7335, you can email Mark Cook ([mcook@mansfieldma.com](mailto:mcook@mansfieldma.com)), or Lee Azinheira, DPW Director ([lazinheira@mansfieldma.com](mailto:lazinheira@mansfieldma.com)). Please refer to [www.mansfieldma.com](http://www.mansfieldma.com) for updates.**
