Baker-Polito Administration Announces Preregistration System for Mass Vaccination Locations to Launch Friday, Updates on Dose Distribution in the Commonwealth & Designated Vaccine Clinic Days for K-12 Educators, Staff & Child Care Workers

BOSTON — The Baker-Polito Administration today announced a new preregistration signup tool will be available for the state's 7 mass vaccination sites starting Friday, March 12. The new system will make it easier to request and book an appointment at a mass vaccination site at a nearby location when they are available. More sites will be added to the preregistration system in the coming weeks. When preregistration launches on Friday, it will replace the current booking platforms for mass vaccination sites for online booking. The COVID-19 Vaccine Scheduling Resource Line will be available to help residents without internet access or with difficulty using the internet with the preregistration process.

The Administration also announced the weekly distribution of vaccine doses statewide for different providers, reminding residents that there are 170 public vaccination sites statewide in addition to health systems that are offering appointments to their patients.

More information on vaccine sites can be found at: vaxfinder.mass.gov

The Administration also announced four dedicated educator days at mass vaccination sites and updates on vaccine distribution channels.

Preregistration System

Partnering with the Google Cloud Team, the Administration will launch a preregistration system for mass vaccination sites only starting Friday, March 12. This tool will be available at mass.gov/COVIDvaccine.

Preregistration will allow eligible residents to book an appointment at one of the state's 7 mass vaccination sites.

Details on the Preregistration Process:

- Eligible residents will complete the online form at mass.gov/COVIDVaccine to request to book an appointment at a mass vaccination site nearby.
- After completing the form, residents will get a confirmation via their preferred method of contact (text, e-mail, phone) and receive a weekly update about their status. Residents may opt out of their preregistration at any time if they secure an appointment elsewhere.
- When an appointment becomes available at a mass vaccination site, the resident will be notified and will have 24 hours to accept the appointment once it is offered to them. If an appointment is not accepted after 24 hours, the resident will go back into the queue to wait for another appointment.
- To accommodate older residents and others who are unable to use the form, the preregistration form allows family members, caregivers or other companions to fill out the form on behalf of someone else. Residents who do not have internet access or someone to fill the form out for them can call 2-1-1 to preregister.

Available appointments will be offered to residents based on their vaccine eligibility and the availability of appointments at mass vaccination sites nearby. Initially, this program is only for the state's 7 mass vaccination sites. More sites will be added to the pre-registration system in April.

Massachusetts receives a very limited supply of vaccine from the federal government each week. Due to high demand and limited supply, there are only a small number of appointments for eligible residents. Given the limited number of available appointments due to constraints on vaccine supply, it could take several weeks for eligible, preregistered residents to receive a notification about an available appointment.

In addition to preregistering for a mass vaccination appointment, eligible residents are encouraged to book vaccine appointments at any of the 170 public vaccine sites across the Commonwealth. The state has also allocated a supply of doses to certain health care providers, hospitals and community health centers that will provide instructions to their patients on their vaccine process.

Once the preregistration system is launched on Friday, March 12, it will replace the weekly appointment release on Thursdays for mass vaccination sites only. Eligible residents will need to preregister online or contact the call center to request an appointment for a mass vaccination site.

The preregistration system will not impact this week's appointment release on Thursday, March 11 for mass vaccination sites. Residents should follow the usual process on March 11 to secure an appointment as a mass vaccination site.

Other Ways to Access a Vaccine Appointment:

Eligible residents are encouraged to look for appointments at any of the state's 170 public vaccine sites by searching vaxfinder.mass.gov.

This webpage contains information on locations, hours and instructions to schedule appointments.

New appointments are added frequently for many sites.

Vaccine doses are also provided to certain health care providers, hospitals, and community health centers. If you are an eligible patient, please follow instructions from your health care provider on how to access a vaccine.

State Distribution:

This week, the state will receive a constrained supply of about 155,000 first doses.

This week, first doses and second dose allocations (total doses), were divided among providers as follows:

- Mass vaccination sites: 83,000
- Hospital Providers (both private and public): 79,000
- Regional Collaboratives (12 total): 38,000
- Community Health Centers: 25,000
- Local Boards of Health (to complete 2nd dose appointments and support 20 disproportionately impacted communities): 25,000

Weekly allocations are subject to change based on federal availability, demand from providers, and obligations to meet second doses. Providers have 10 days to use their doses.

Federal Doses:

In addition to the state allocation, the federal government distributes vaccines to CVS Health sites as part of the Federal Retail Pharmacy Partnership as well as to certain Massachusetts federally qualified community health centers. These quantities fluctuate on a weekly basis and are not counted as part of the state's weekly allocation.

This week, 95,000 first and second doses have been allocated to the retail pharmacy program and 19,000 Johnson & Johnson doses have been allocated to the federally qualified health centers.

Individuals looking to book appointments across any of these providers should visit mass.gov/COVIDvaccine to learn more.

Mass Vaccination Appointments:

On Thursday, March 11, over 40,000 new first dose appointments for mass vaccination sites will be made available to eligible groups through the state's website and the COVID-19 Vaccine Scheduling Resource Line. Additionally, over 40,000 second dose appointments have also been scheduled at mass vaccination sites.

This is the last week that mass vaccination sites will be posted online on Thursday morning. Starting March 12, all mass vaccination appointments will be booked through the pre-registration system.

As more individuals have received a first vaccine dose across the Commonwealth, there is a greater need to book second appointments, so the mass vaccination sites have fewer first dose appointments available on a weekly basis.

Educator Vaccination Days

On March 11, pursuant to a federal directive, approximately 400,000 K-12 educators, childcare workers and K-12 school staff are eligible to receive COVID-19 vaccine in Massachusetts.

K-12 educators, childcare workers and K-12 school staff may receive vaccine from any of the 170 public vaccine sites available on mass.gov/COVIDvaccine.

In an effort to support the Biden-Harris Administration's directive for states to prioritize teacher vaccinations, the Administration will designate 4 days where the state's 7 mass vaccination sites will only offer 1st dose appointments for K-12 educators, child care workers and K-12 school staff.

These dates are: Saturday, March 27, Saturday, April 3, Saturday, April 10, and Sunday, April 11

Workers in this group must use the pre-registration system to request an appointment at one of the seven mass vaccination sites and attest they are a K-12 educator, childcare worker or K-12 school staff.

All other vaccine providers (including Regional Collaboratives) are encouraged, but not required, to restrict their appointments to K-12 educators, child care workers and K-12 school staff on Saturday, March 27, Saturday, April 3, Saturday, April 10 and Sunday, April 11, for consistency. Providers may designate alternative dates, in lieu of the 4 dates designated by the State, if necessary.

Clinics may not restrict access to individuals who live or work in a particular area.

All vaccine providers (including regional collaboratives) must submit their dates for educator clinics by Tuesday, March 16. The Command Center will post the schedule for all clinics next week.

K-12 educators, childcare workers and K-12 school staff are urged to book appointments through mass.gov/COVIDvaccine beginning on March 11 as well as to book through the federal retail pharmacy program's CVS website. Given the limited supply of vaccine, K-12 educators, childcare workers and K-12 school staff may not receive vaccine until mid-April or later.

Mass Vaccination Locations:

- Springfield, Eastfield Mall
- Natick, Natick Mall

- Foxboro, Gillette Stadium
- Danvers, Doubletree Hotel
- Boston, Fenway Park (through 3/27) and Hynes Convention Center (starting 3/18)
- Roxbury, Reggie Lewis Center
- Dartmouth, Former Circuit City

Regional Collaboratives:

- Barnstable County
- Berkshire County Boards of Health Association
- Franklin County Regional Collaborative
- Harrington Hospital, in Collaboration with LBOH
- Heywood Hospital, in Collaboration with LBOH
- Lawrence General Hospital, in Collaboration with LBOH
- Marshfield-Plymouth
- Northampton & Amherst
- Randolph – Collaboration between Avon, Holbrook, and Randolph
- Rutland
- Worcester, Worcester State University, Commonwealth Medicine and St. Vincent Hospital
- Lower Merrimack Valley- Collaboration between Amesbury, Georgetown, Groveland, Merrimack, Newbury, Newburyport, Rowley, Salisbury and West Newbury
- Southern Worcester County Regional COVID-19 Vaccination Coalition- Collaboration between Uxbridge, Northbridge, Mendon, Douglas, Bellingham, Blackstone, Hopedale, Millville, Milford, Oxford, Upton, Sutton

- **MA Vaccine Scheduling Resource Line**

Council on Aging staff is available to assist any vaccine-eligible seniors who need help navigating the scheduling process. Please call 508-261-7368.

The [Massachusetts Vaccine Scheduling Resource](#) Line is available to support people 75 and older to schedule a COVID-19 appointment if they are unable to use or have difficulty accessing the internet. **This line is reserved only for people who do not have internet access or have the capability to schedule an appointment online.**

The call center hours of operation:

- **Monday to Thursday from 8:30 a.m. to 8:00 p.m.**
- **Friday, Saturday, and Sunday from 8:30 a.m. to 5:00 p.m.**

For assistance scheduling, dial 2-1-1 and follow the prompts for vaccine appointments. The Massachusetts Scheduling Resource Line is available in English and Spanish and has translators available to support residents in approximately 100 additional languages.

This resource line is not to answer general questions about COVID-19 or provide individual health care advice. **The quickest and easiest way to schedule a vaccine appointment or check availability is to use the online system at mass.gov/covidvaccine.**

At this point, the Town does not have any vaccine for public distribution. Please go to the [COVID webpage](#) for vaccine information and updates.

- **Change in MA [Travel Order](#) for fully vaccinated people**

The Commissioner's Designated Exceptions to MA travel order now includes:

- *Persons Who Have Been Completely Vaccinated for COVID-19:* Individuals who have received two doses of either the Moderna or Pfizer COVID-19 vaccines OR who have received a single dose of the Janssen vaccine, more than 14 days ago and who do not have symptoms, do not need to obtain a negative test prior to traveling to, or quarantine upon arrival to, Massachusetts. COVID-19 vaccinated individuals arriving in Massachusetts must have documentation of their vaccination(s), including the date(s) of administration, available if asked. This exception **does not** include vaccinated individuals who have symptoms of COVID-19, who must follow all testing and quarantine guidance outlined in the travel rules
