- [Domestic Travel During COVID-19](#)

Updated Information for Travelers

- Fully vaccinated travelers are less likely to get and spread COVID-19.
- People who are fully vaccinated with an FDA-authorized vaccine or a vaccine authorized for emergency use by the World Health Organization can travel safely within the United States:
 - Fully vaccinated travelers do not need to get tested before or after travel unless their destination requires it
 - Fully vaccinated travelers do not need to self-quarantine
- Fully vaccinated travelers should still follow CDC's recommendations for traveling safely including:
 - Wear a mask over your nose and mouth
 - Stay 6 feet from others and avoid crowds
 - Wash your hands often or use hand sanitizer

Domestic Travel Recommendations for Fully Vaccinated People

People who are [fully vaccinated](#) with an FDA-authorized vaccine or a vaccine authorized for emergency use by the World Health Organization can travel safely within the United States.

If you are [fully vaccinated](#), take the following steps to protect others if you travel:

- During Travel
 - Wear a mask over your nose and mouth. [Masks are required](#) on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and in U.S. transportation hubs such as airports and stations.
 - Avoid crowds and stay at least 6 feet/2 meters (about 2 arm lengths) from anyone who is not traveling with you.
 - Wash your hands often or use hand sanitizer (with at least 60% alcohol).
- After Travel
 - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
 - Follow all [state and local](#) recommendations or requirements.

You do NOT need to get tested or self-quarantine if you are fully vaccinated or have recovered from COVID-19 in the past 3 months. You should still follow all other travel recommendations.

Domestic Travel Recommendations for Unvaccinated People

If you are not fully vaccinated and must travel, take the following steps to protect yourself and others from COVID-19:

- Before you travel:
 - Get tested with a viral test 1-3 days before your trip.
- While you are traveling:
 - Wear a mask over your nose and mouth. [Masks are required](#) on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and in U.S. transportation hubs such as airports and stations.
 - Avoid crowds and stay at least 6 feet/2 meters (about 2 arm lengths) from anyone who is not traveling with you.
 - Wash your hands often or use hand sanitizer (with at least 60% alcohol).
- After you travel:
 - [Get tested with a viral test 3-5 days](#) after travel **AND** stay home and self-quarantine for a full 7 days after travel.
 - Even if you test negative, stay home and self-quarantine for the full 7 days.
 - If your test is positive, [isolate](#) yourself to protect others from getting infected.
 - If you don't get tested, stay home and self-quarantine for 10 days after travel.
 - Avoid being around people who are at [increased risk for severe illness](#) for 14 days, whether you get tested or not.
 - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.

- Follow all [state and local](#) recommendations or requirements.
- Visit your state, territorial, tribal or local health department's website to look for the latest information on where to get tested.
