Tips for addressing COVID-19 vaccine hesitancy with loved ones

Listen to their vaccine questions and concerns with empathy, and try not to judge. Ask open-ended questions like:

- What concerns you about the vaccine?
- What questions do you have?

Ask permission to share accurate information that can help make their vaccine decision easier. Provide them with resources such as:

- www.mass.gov/covid-19-vaccine
- www.cdc.gov/vaccines/covid-19

Once you have heard their reason "why not", help your loved one find their reason "why" they should get vaccinated, maybe so they can:

- protect their children and family?
- return to work or school?

Help make their path to vaccination shorter, easier, and less stressful by offering to help schedule their vaccine appointment online at:

- vaxfinder.mass.gov
