- [Get Vaccinated Against COVID-19 for individuals age 5+](#)

People age 5+ who live, work or study in Massachusetts can be vaccinated. Sign up and be notified of appointments near you.

Use VaxFinder.mass.gov to search for appointments at pharmacies, health care providers, and other community locations.

Council on Aging staff is available to assist any vaccine-eligible seniors who need help navigating the scheduling process. Please call 508-261-7368.

- [COVID-19 Vaccine Booster Shots](#)

Find out when you are eligible for a COVID-19 Booster:

- You can check if you're eligible for a booster at <http://mass.gov/BoosterCheck>
- If you are eligible, visit <http://vaxfinder.mass.gov> for a list of locations to receive a booster (or call 2-1-1)
- More info on the boosters can be found at [COVID-19 booster frequently asked questions | Mass.gov](#)

- [Bristol county identified as an area of high transmission](#)

Bristol county has been identified by the CDC as an area of high transmission for COVID-19. The CDC recommends all people, no matter their vaccination status, wear masks indoors and in crowded outdoor settings in areas of substantial or high transmission. More information can be found [here](#).

County	COVID transmission level
Barnstable	High
Berkshire	High
Bristol	High
Dukes	High
Essex	High
Franklin	High
Hampden	High
Hampshire	High
Middlesex	High
Nantucket	High
Norfolk	High
Plymouth	High
Suffolk	High
Worcester	High

[How is community transmission calculated?](#)

January 4, 2022

Cases	4,191
Case Rate per 100k	741.49
% Positivity	13.02%
Deaths	35
% of population ≥ 5 years of age fully vaccinated	64.9%
New Hospital Admissions	141

Data from [CDC COVID Data Tracker](#)

- [Mask Advisory for Vaccinated and Unvaccinated Residents](#)

Effective December 21, 2021: In response to the spread of the Delta variant and the emerging Omicron variant, the Department of Public Health now advises that all residents, regardless of vaccination status, wear a mask or face covering when indoors (and not in your own home). The DPH particularly urges this recommendation if you have a weakened immune system, or if you are at increased risk for severe disease because of your age or an underlying medical condition, or if someone in your household has a weakened immune system, is at increased risk for severe disease, or is unvaccinated.

This advisory may change based on public health data and further guidance from the CDC.

COVID-19 Mask Requirements

- [Testing for COVID-19](#)

CDC's online COVID-19 Viral Testing Tool can help you understand your COVID-19 testing options. Get started: <https://bit.ly/covid-testing-tool>.

Testing is our best tool to identify those who have been exposed and slow the uptick in cases. You should get tested for COVID-19 if you have symptoms or you've been exposed to someone with COVID-19, even if you're fully vaccinated. If you've had COVID-19 in the past 3 months and you've been exposed to someone with COVID-19, you don't need to get tested if you don't have new symptoms. Testing is encouraged regardless of vaccination status. <https://www.mass.gov/covid-19-testing>

The Town of Mansfield does not have any public testing or self-test kits available at this time. Please check the [Mansfield Health Department Coronavirus Information webpage](#) for updates.

- [COVID-19 Self-tests](#)

Self-tests may be used if you have COVID-19 symptoms or have been exposed or potentially exposed to an individual with COVID-19.

Even if you don't have symptoms and have not been exposed to an individual with COVID-19, using a self-test before gathering indoors with others can give you information about the risk of spreading the virus that causes COVID-19. This is especially important before gathering with [unvaccinated children](#), [older individuals](#), those who are [immunocompromised](#), or [individuals at risk of severe disease](#).

There are CDC videos available to learn more about self-tests.

- [Enable MassNotify on your smartphone](#)

Add your phone to the fight. Know if you've been exposed and help stop the spread of COVID-19.

MassNotify is a tool that works through smartphones, with a focus on privacy, to alert users who may have been exposed to COVID-19. You can enable MassNotify on your iPhone or Android phone to add another tool to our fight against the spread of COVID-19.

- By opting in, your device will share anonymous codes with other MassNotify users using your phone's Bluetooth.
- MassNotify codes contain no personal information or location data and are completely anonymous.
- If another user you've been near tests positive for COVID-19 within a 14-day period, you will be notified. If you test positive, you can easily and anonymously notify others to stop the spread of COVID-19.

[Learn how to enable MassNotify on your phone.](#)

- [Requesting a copy of your COVID-19 vaccination record](#)

There are several options to request a copy of your COVID-19 Vaccination Record. Please go to [Requesting a copy of your COVID-19 vaccination record | Mass.gov](#) for more information.
