Positive Cases recovered	3123	
Total tested positive since beginning:	3587	
Covid-19 Related Deaths	29	Last Covid death in Mansfield 12/20/21

Vaccine Distribution in Mansfield- data through January 11, 2022

■ Population ■ Individuals with booster doses ■ Fully vaccinated individual, no booster ■ Partially vaccinated individuals

- [Stay Up to Date with Your Vaccines](#)

The Centers for Disease Control and Prevention (CDC) now recommends that Americans stay "up to date" with COVID-19 vaccines, rather than be "fully vaccinated." For most people, completing a primary series of a particular vaccine means they're deemed "fully vaccinated," but they're only deemed "up to date" if they then receive a booster shot.

[COVID-19 vaccines](#) are effective at protecting you from getting sick. Based on [what we know](#) about COVID-19 vaccines, and similar to what we know from other recommended vaccines, people who are up to date with their vaccines are well protected from serious illness or other health outcomes.

Get Vaccinated

Everyone 5 years and older is recommended to receive a primary series of a COVID-19 vaccine to be considered fully vaccinated. Use [VaxFinder.mass.gov](https://vaxfinder.mass.gov) to search for appointments at pharmacies, health care providers, and other community locations.

For children 5 years through 17 years of age, a primary series consists of 2 doses of the Pfizer-BioNTech COVID-19 vaccine. For persons 18 and older, a primary series consists of:

- A 2-dose series of an mRNA COVID-19 vaccine (Pfizer-BioNTech or Moderna), or
- A single-dose COVID-19 vaccine (Johnson & Johnson's Janssen vaccine)

Pfizer-BioNTech or Moderna (COVID-19 mRNA vaccines) are preferred. You may get Johnson & Johnson's Janssen COVID-19 vaccine [in some situations](#).

Stay Up to Date with Your Vaccines

CDC recommends that people remain up to date with their vaccines, which includes [additional doses](#) for individuals who are immunocompromised or [booster doses](#) at regular time points. Individuals who are [moderately or severely immunocompromised](#) should get an additional primary shot and a booster shot.

Who Should Get a Booster Shot

Ensure you are optimally protected against COVID-19 by [getting vaccinated](#) and staying up to date with a [booster dose](#).

Council on Aging staff is available to assist any vaccine-eligible seniors who need help navigating the scheduling process. Please call 508-261-7368.

Am I eligible for a COVID-19 booster shot?

Who?
Individuals 12+ who are fully vaccinated*
*Individuals age 12-17 can only get the Pfizer booster

When?

- At least 5 months after Moderna
- At least 5 months after Pfizer
- At least 2 months after Johnson & Johnson

Which booster shot do I get?

- You may have a preference, but you can get any type of vaccine for your booster shot

- [Mask Mandate for all public spaces within Mansfield](#)

FACE MASK

REQUIRED

Per Order of the Mansfield Board of Health, effective January 12, 2022, anyone over the age of two entering this establishment must wear a face covering, regardless of vaccination status. Masks are to be worn to completely cover a person's nose and mouth.

Thank you for your cooperation!

Due to the rapid rise in cases in the Town of Mansfield, the Mansfield Board of Health has enacted an emergency order requiring masks for all individuals aged two years and above in all indoor public spaces, places of worship, or private spaces open to the public except where an individual is unable to wear a face covering due to a medical condition or disability. This mandate will be in place until February 28, 2022.

Additional information can be found on the Coronavirus webpage: [Coronavirus Information | Mansfield, MA \(mansfieldma.com\)](#)

- [Public Health Advisory regarding COVID-19 Testing](#)

When should I get tested?

The Massachusetts Department of Public Health advises all residents to seek COVID-19 tests when exhibiting [COVID symptoms](#), or five days following a known close contact with someone diagnosed with COVID pursuant to MA DPH quarantine and isolation protocols, updated in accordance with the new CDC guidance.

Important Links for Testing:

- Using a COVID-19 Self-Test: <https://www.mass.gov/info-details/using-a-covid-19-self-test>
- CDC COVID-19 Testing: <https://www.cdc.gov/coronavirus/2019-ncov/testing/index.html>

The Town of Mansfield does not have any public testing or self-test kits available at this time. Please check the [Mansfield Health Department Coronavirus Information webpage](#) for updates.

- [Isolation and Quarantine Guidance for the General Public](#)

If you test positive for COVID-19 (isolate)

Everyone, regardless of vaccination status:

- Stay home for 5 days.
- If you have no symptoms or your symptoms are resolving after 5 days, you can leave your house.
- Continue to wear a mask around others for 5 additional days.

If you have a fever, continue to stay home until your fever resolves

If you were exposed to someone with COVID-19 (quarantine)

If you:

Have been boosted

OR

Completed the primary series of Pfizer or Moderna vaccine within the last 6 months

OR

Completed the primary series of J&J vaccine within the last 2 months

- Wear a mask around others for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home.

If you:

Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted

OR

Completed the primary series of J&J over 2 months ago and are not boosted

OR

Are unvaccinated

- Stay home for 5 days. After that continue to wear a mask around others for 5 additional days.
- If you can't quarantine you must wear a mask for 10 days.
- Test on day 5, if possible.

If you develop symptoms get a test and stay home
