Vaccine Distribution in Mansfield- data through April 19, 2022

■ Population ■ Individuals with booster doses ■ Fully vaccinated individual, no booster ■ Partially vaccinated individuals

All data obtained from [Massachusetts COVID-19 vaccination data and updates](https://www.mass.gov/info-details/massachusetts-covid-19-vaccination-data-and-updates) | [Mass.gov](https://www.mass.gov)

Why You Should Stay Up to Date with Your COVID-19 Vaccines

Getting vaccinated and boosted greatly reduces your risk of severe illness, hospitalization, and death.

COVID-19 vaccines, including boosters, are effective against known variants, including Omicron.

All COVID-19 vaccines currently approved or authorized in the U.S. are safe.

FIND A VACCINE NEAR YOU: [WWW.VACCINES.GOV](https://www.vaccines.gov)

Are you up to date on your COVID-19 vaccines?

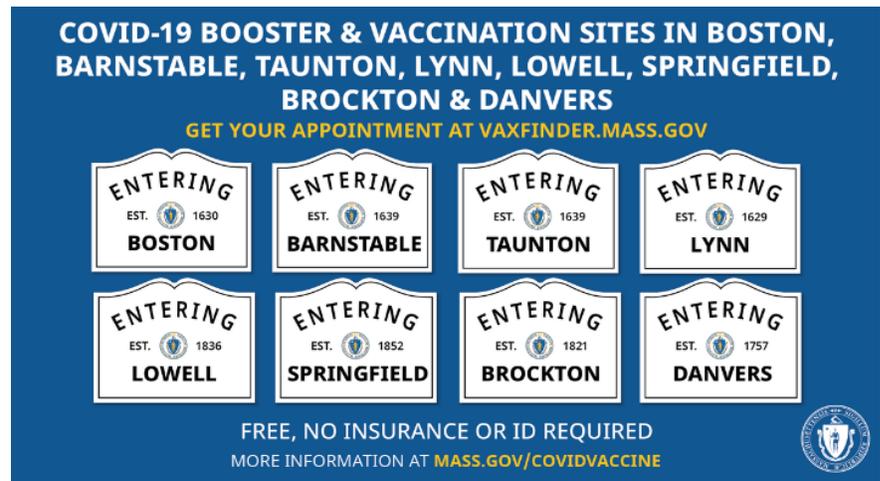

You're up to date on COVID-19 vaccines when you've received all vaccines recommended for you, including additional doses and boosters when you're eligible. Learn more about what it means to be up to date on COVID-19 vaccines: <https://bit.ly/3u3wsHF>.

- [Get Vaccinated and Boosted Against COVID-19 for individuals age 5+](#)

Following updated recommendations from the federal government, all residents aged 50 and older or individuals who are younger with certain medical conditions may now access a second COVID-19 booster. Those eligible include:

- Individuals 50 years of age and older at least 4 months after getting a first booster
- Individuals 18 and older with [certain medical conditions](#) may get a second Moderna booster at least 4 months after first booster
- Individuals 12 and older with [certain medical conditions](#) may get a second Pfizer booster at least 4 months after the first booster.

Separately and in addition, per the CDC, individuals 18 and older who received a primary vaccine and booster dose of Johnson & Johnson's Janssen COVID-19 vaccine at least 4 months ago may now receive a second booster dose using an mRNA COVID-19 vaccine.

The Centers for Disease

Control and Prevention (CDC) recommends that [Americans stay "up to date" with COVID-19 vaccines](#), rather than be "fully vaccinated." Up to date means a person has received all recommended COVID-19 vaccines, including any booster dose(s) when eligible. Fully vaccinated means a person has received their primary series of COVID-19 vaccines.

Important Links for Vaccination:

- MA COVID-19 Vaccine Information: www.mass.gov/info-details/massachusetts-covid-19-vaccine-information
- Find a Vaccine Location, including boosters: www.vaxfinder.mass.gov
- COVID-19 Vaccine frequently asked questions: www.mass.gov/info-details/covid-19-vaccine-frequently-asked-questions
- COVID-19 vaccine booster shots, ages 12+: www.cdc.gov/coronavirus/2019-ncov/vaccines/booster-shot.html
- COVID-19 booster frequently asked questions: www.mass.gov/info-details/covid-19-booster-frequently-asked-questions
- Generate a COVID-19 digital vaccine card: www.mass.gov/massachusetts-vaccination-records
- Request a copy of your vaccine record: www.mass.gov/info-details/requesting-a-copy-of-your-covid-19-vaccination-record

- [Treatments for COVID-19](#)

Free treatments for COVID-19 are available. They can help prevent hospitalization and reduce your chance for severe disease.

Treatment is available for people who are at increased risk of severe disease, test positive for COVID-19 and have any symptoms, even mild ones (such as runny nose or cough). The sooner you start treatment, the better.

- **Call your doctor right away** to learn about your treatment options, OR
- **Call (508) 213-1380** to speak with a Gothams representative. If you're eligible for COVID-19 treatment, they can schedule an infusion appointment for you at one of their 7 sites in Massachusetts. Gothams COVID-19 Self-Referral Treatment Line is open Monday–Saturday from 8 a.m. to 6 p.m.

- [Bristol County COVID-19 Community Level is identified as LOW](#)

[COVID-19 Community Levels](#) are a new tool to help communities decide what prevention steps to take based on the latest data. Levels can be low, medium, or high and are determined by looking at hospital beds being used, hospital admissions, and the total number of new COVID-19 cases in an area. Take precautions to protect yourself and others from COVID-19 based on the COVID-19 Community Level in your area.

In **Bristol County**, community level is **Low**.

- Stay [up to date](#) with COVID-19 vaccines
- [Get tested](#) if you have symptoms

People may choose to mask at any time. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask. If you are immunocompromised, learn more about [how to protect yourself](#).

COVID-19 Community Level designations throughout Massachusetts as of April 6th:

County	COVID-19 Community Level
Barnstable	Low
Berkshire	Medium
Bristol	Low
Dukes	Low
Essex	Low
Franklin	Low
Hampden	Low

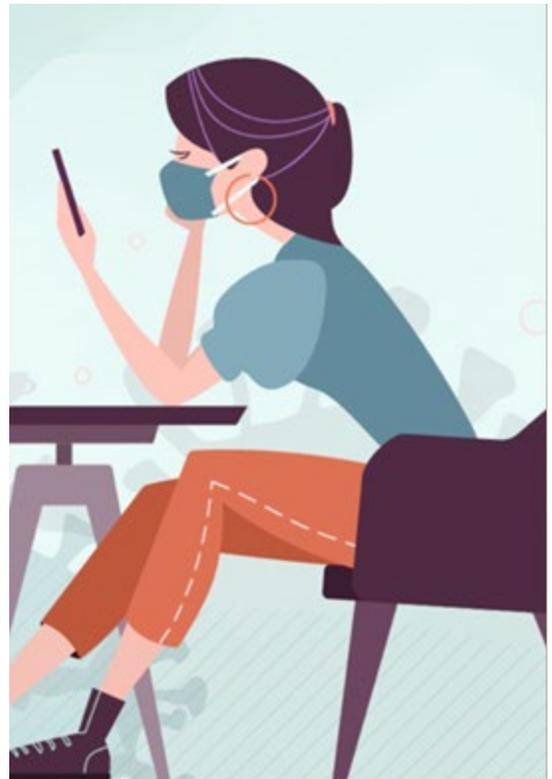

County	COVID-19 Community Level
Hampshire	Medium
Middlesex	Medium
Nantucket	Low
Norfolk	Low
Plymouth	Low
Suffolk	Medium
Worcester	Low

- COVID-19 Isolation and Quarantine Guidance for the General Public: www.mass.gov/info-details/covid-19-isolation-and-quarantine-guidance-for-the-general-public
- How To Talk To Your Close Contacts: www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/tell-your-contacts.html
- Enable MassNotify on your smartphone: www.mass.gov/info-details/enable-massnotify-on-your-smartphone

The CDC has a new [COVID-19 Quarantine and Isolation \(Q&I\) Calculator](#) which offers customized information to address each unique situation. It takes the stress out of figuring when, and for how long, people with COVID-19 and close contacts need to stay home, get tested, and wear a well-fitting mask. The calculator provides important information about what precautions people with COVID-19 and their close contacts can take to protect loved ones and prevent COVID-19 in their communities. This online, mobile-friendly calculator provides a simple, easy-to-use way to help people follow CDC's [Quarantine and Isolation](#) guidance and get customized information that applies to their unique situation.

To use the tool:

- People with COVID-19 who do not have symptoms need to know the date they were tested for COVID-19
- People with COVID-19 who have symptoms need to know the date their symptoms began
- Close contacts need to know the date they last came into close contact with someone with COVID-19

[Answers to frequently asked questions](#) about the Quarantine and Isolation Calculator are available for those who want to learn more about the tool.

- [Public Health Advisory regarding COVID-19 Testing](#)

The Massachusetts Department of Public Health advises all residents to seek COVID-19 tests when exhibiting [COVID symptoms](#), or five days following a known close contact with someone diagnosed with COVID pursuant to MA DPH quarantine and isolation protocols, updated in accordance with the new CDC guidance.

For information about the schools and COVID, please see their School Health and COVID Information webpage: <https://sites.google.com/mansfieldschools.com/covid-19/home>

For the second year, COVID-19 was the third leading cause of death in the United States in 2021, behind heart disease and cancer, a new CDC report found. Rates of COVID-19 deaths were highest among people who were Native Hawaiian or other Pacific Islander and people who were American Indian/Alaska Native.

Stay up to date on your COVID-19 vaccines to help prevent serious illness and death. Read more: bit.ly/MMWR7117.

Stay Up to Date with Your COVID-19 Vaccines to Help Prevent Hospitalization

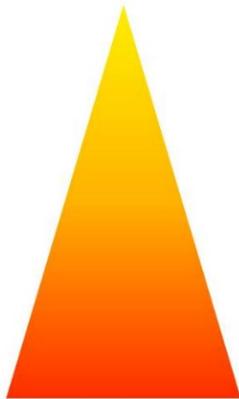

Vaccination Status

Up to Date
Has completed primary series and one booster when eligible

Fully Vaccinated
Has been at least 2 weeks since receiving primary series¹

Partially Vaccinated
Has not yet completed primary series

Not Vaccinated
Has received no COVID-19 vaccines

Risk of Hospitalization

Lowest Risk of Hospitalization

Highest Risk of Hospitalization

Keeping up to date with recommended COVID-19 vaccine doses is the best way to protect yourself from being hospitalized with COVID-19.

Learn what it means to be up to date and how to lower your risk for hospitalization from COVID-19: <https://bit.ly/3u3wsHF>.

¹If you have completed your primary series—but are not yet eligible for a booster dose—you are also considered up to date.
